QUITO - ECUADOR

Quito, May 9, 1964

Ron B. Schiller
Box 456
Monmouth Beach, N.J.
EE. UU.

Dear Ron,

This will confirm and verify your report of reception of Radio Ecuatoriana on 855 kilocicles dated December 24, 1963. All the information in your report is correct.

Radio Ecuatoriana transmits now on a frequency of 860 kilocicles with an antenna input of 5,000 watts. The frequency was changed from 855 kcs. to avoid interference from a powerful colombian station on 850 kcs.

We invite you to tune to Radio Ecuatoriana Saturdays at 8.30 PM and weeknights at 9.45 for our all-englis program, Gringolandia". This program of American folk and popular music is directed by Dave Gleason and Andy Cooksey.

Thanks for your report, and keep listening to Quito's most popular and powerful commercial station.

Sincerely yours,

RADIO ECUATORIANA
